Best fricking FRG(Free running game) ive ever played! easy to learn but real tough to master, skills like alt-tapping are necessary for high level play. took me 20 hours to get on 2 map leaderboards for gamerVtime trial. maybe the devs will get their head out of aquanox's\u2665\u2665\u2665\u2665\u2665\u2665and give us a map editor

20 hours to get on two gamer time trial leaderboards. Farming Simulator 2017 but the tractor is a Bangbus. Great platform, great anticheat. I highly recommend this for players who wants to improve and play a higher level of counter strike without cheaters.. Well, isn't Owlboy grand?

When playing through it, you feel as if you're playing a Disney movie, what with all the usual tropes: underdog protagonist, comic relief sidekick, bad guys gone good, exotic locations and overall lighthearted tone. The ending just makes the overall experience all the more impactful.

Design-wise this game employs an attitude very few game developers care about or can afford: each new loctation and each new bossfight contains a set of new mechanics, which you will encounter only once and only in this location or bossfight. This sort of generosity requires A TON of money, time and commitment, so no wonder I've only seen it in Half-Life 2 before and heard it was employed in Rayman Legends and a few Mario games. However, this game was 10 years in development, so the authors pulled it off greatly. All ~12 hours of gameplay you will be encountering new mechanics.

Isn't Owlboy grand?. Great job developers! I love this luxury condo. The little secrets are funny and fun to play. Please don't take anything away. However, why is the Master bedroom nonfunctional? Open it up, and add a luxury bath. The lady behind the door can be added as a shadow in the bedroom shower. (wink) Also, add a cute puppy and a hot maid.. This review covers all 4 of the East Tower games in one. Simply put, the game isn't very good. The art has occasional good moments but most of it is pretty bad. The story is set up in such a way that it could lend itself to an interesting discussion of gender identity and digital sexuality but it instead chooses to do clich\u00e9 "oops, I tripped and grabbed your boob" moments. There are dialog options but the game is still very linear; you either die instantly, find a solution, or pick a solution that gives you a bit of extra dialog.

I would not recommend any of these games except for Kurenai (which was admittedly pretty good). However, there are parts of the Kurenai story that won't make any sense without playing at least a bit of the other ones.

The game is also way too expensive. I bought them all as a set with 40% off (\$18 total) and I feel ripped-off. There are much better VNs available for much less. Takashi, Kuon, and Akio were each only about 1.5 hours of play time, which is not a great value.

Finally, every time you finish a section (and there are at least 7 sections per game) the game tries to get you to post to social media. That really pisses me off. It takes me out of the moment to try to get me to advertise for a game that I paid for. Dear game devs, please don't do that!. I like this game very much, I just do not recommend this particular Steam version which does not work! The game cannot even be launched under Win 8.1 64-bit, the process just hangs and has to be killed manually.. 5000000 00000000000000000000000000+100. PLZ DO A 1980 DODGE POWER RAM

quot;Wolfie's fine honey" - if you like sci-fi/cyberpunk/medpunk exploration with a touch of really not difficult but touching and rewarding puzzles then this is for you. Great story, good voice acting, supremely clever references to everything from Dead Island to Terminator, Gattaca, and Condemned Criminal Origins, to name a few. A little on the short side and the ending leaves a little to be desired, but truly enjoyed The Assembly. 8/10.. could do whith mission were you nock down houses. Very enjoyable add-on to the base game. You now have objectives while playing, a nice little challenge. Cunning use of the steam badges (=certain ships available).. Play this game with your friends while you're drunk.

You won't regret it.. Naprosto parádní hra, která ohromí svou atmosférou a hratelností. Už samotný koncept spojení ryb a robotů je originální a vymyká se nekonečnému vydávání stříleček a bojovek, které jsou pořád o tom samém. Zaujme i audio a grafika, zkrátka jedna z mála her, které mě v poslední době opravdu pobavily
